Articles:

- **Melvyn New, 'Arthur H. Cash: A Personal Memorial'**
- **Daniel Reed, 'Ambition and Disappointment? Two New Sterne Letters of 1752'**
This article identifies two previously-unknown Sterne letters of 1752, the first 'new' pieces of Sterne's correspondence to be brought to light in over ten years. First, evidence is forwarded to demonstrate that just two years after delivering the assize sermon 'The Abuses of Conscience' at York Minster, Sterne wrote a letter of application (now lost) to serve Richard of Sykes of Sledmere, High Sheriff of Yorkshire for 1752 – an episode entirely unknown within Sterne studies. The second letter, to John Fountayne, Dean of York, provides a personal insight into Sterne's activities as commissary in the peculiar courts of the diocese of York. A full text of this letter is presented from the original manuscript. These discoveries, it is argued, provide a crucial insight into a period in which Sterne was embroiled in disturbances in York chapter politics, domestic unhappiness, and an ongoing struggle to gain a foothold with both ecclesiastical and lay patrons in order to further his clerical career.
- **Richard Wallis, 'The Slops of York'**
Common wisdom has it that Dr Burton stood model for Tristram Shandy's Dr. Slop. This article argues that besides Sterne's uncle Jaques two medical men in York, Dr. Henry Goddard and Dr. Edward Wallis inspired Sterne's composite caricature.
- **Hilary Newman, 'Southey and Sterne'**
There are many references in Robert Southey's *The Doctor* to *Tristram Shandy*, revealing a high degree of intertextuality. These vary from comments showing great familiarity with *Tristram Shandy* to recollections of entire passages or episodes. There are also references in Southey's letters, which show that he consciously took *Tristram Shandy* as a model for his *The Doctor*. This article will trace these influences and reveal how imitation led Southey (1774-1843) to treat particular themes. Direct, briefer echoes of *Tristram Shandy* in *The Doctor* will also be highlighted.
- **Tim Parnell, 'Explanatory Remarks, &c.'**
The full text of the first pamphlet response to *Tristram Shandy* is here introduced, transcribed, and annotated.

Sterneana:

- This year's marbling; Bookkeeping; Among Cowboys; And Freemasons; The Railway Poet on Sterne; The Sixth; Alas, Poor Fanny; Widow Wadman in New Zealand; Hungarian Book Art; Specially Bound; Slessor on Sterne.

Conferences and Forthcoming:

- 2017 Conference in Bydgoszcz; Galiani Verlag in 2018; 250 Years Ago; March 2018 Jesus College Conference.

Notes:

- **Gordon Potter, 'An "affair of hinges": The Numerological Structure of *Tristram Shandy*'**
The purpose of this article is to attempt to elucidate the structure of Sterne's *The Life and Opinions of Tristram Shandy* through Sterne's use of numerological structures in terms of the central distribution of key images, key events, entrances and exits, and key points in journeys placed at exact central positions in the novel. These central emphases will be shown to occur not only in individual volumes or in volumes published together, but across the whole novel. This would imply that Sterne knew the outline of volumes and chapters in his novel before he started to write it.
- **Daniel Reed, 'Digital Pitfalls: Laurence Sterne and the "Clergy of the Church of England Database"'**
The ambitious Clergy of the Church of England Database (CCEd) provides an alternative access point for an overview of Laurence Sterne's clerical career. The incomplete state of the database, does, however, hold the potential for the spread of misinformation. This note formally refutes a connection made by the indexers of the CCEd which indicates erroneously that Sterne was presented to the East Riding vicarage of Kilnwick Percy in February 1756.
- **Ian Duhig, 'The Back-to-Front, Inside-Out, Upside-Down Project: A Retrospective Note'**
Working on the Digression project, Philippa Troutman and Ian Duhig went to Shandy Hall for the tercentenary of Sterne's birth. Chance was allowed a significant role in this with the result that controversial social and literary issues flowing directly from Sterne's work were shown to have immediate relevance. These have developed since in ways that are noted here but still within the context of artistic considerations arising from *Tristram Shandy* as perceived by Duhig and Troutman.
- **W.B. Gerard, 'A Colossal Mystery'**
Laurence Sterne's work has been visualized in many different media. One of the most famous is C. R. Leslie's 1829 painting, *Uncle Toby and Widow Wadman*. A life-sized sculptural version by Robert Ball Hughes, publicly displayed in 1835, is unique in its scale and its history.
- **Auburon Wright, 'Two Readers of *A Sentimental Journey*'**
The Correspondents, an anonymous publication in 1775, contains extensive discussions of *A Sentimental Journey*. In this note authorship and contents are commented upon.

Articles:

- **Jakub Lipski, Poland's Finest Sternean: Izabela Czartoryska (1746-1835) as Reader and Promoter of Sterne**

In the last two decades the reception of Laurence Sterne in Poland has been given some critical attention (with several essays published in the English language), though a comprehensive account of the phenomenon, comparable to the achievements of German and French Sterneans, has yet to be written. As a result, the scholarly output devoted to 'Sterne in Poland' reveals surprising gaps and omissions. One of these is the figure of Princess Izabela Czartoryska, the hostess of the celebrated Puławy circle and arguably the finest of Poland's early Sterneans. Despite the fact that Czartoryska does appear in the studies of Sterne's reception in Poland, her contribution is largely underrated. This paper aims at a proper evaluation of Princess Izabela's role in orientating Sterne readings in late eighteenth-century Poland, focusing on several unpublished manuscripts collected in the Czartoryski Library in Cracow: Extracts from Literature (Extraits), containing excerpts from Tristram Shandy; Catalogue of Souvenirs from the Gothic House in Puławy, including a Sternean quotation in a rather surprising context; as well as selected correspondence revolving around Sterne's work.

- **Siv Gøril Brandtzaeg, M-C. Newbould, Helen Williams, Advertising Sterne's Novels in Eighteenth-Century Newspapers**

This article draws on the expanding terrain of digital newspaper archives to explore early advertisements for Sterne's work. It situates its findings in relation to previous bibliographical studies to present a more contextual approach to how Tristram Shandy and A Sentimental Journey were advertised during the 1760s. Comparing these small promotional texts with others produced for contemporaneous publications, and placing them within the broader context of publishing conventions in this period, this article shows that typical accounts of Sterne's 'originality' as found in his first reviews and in subsequent critical works was not always reflected in the often conventional nature of the advertisements of his novels. However, the authors conclude, perhaps these pared-back advertisements demonstrate all the more effectively the notorious celebrity both Sterne and his books had attained in the period of their first appearance.

- **Paul Goring, 'Sterne's Subscribers and the Society of Dilettanti'**

This article brings to light a previously overlooked part of Sterne's social network by demonstrating that, in the 1760s, Sterne became involved with the Society of Dilettanti, an élite club of connoisseurs which at the time was becoming increasingly influential within the visual arts. The findings are based upon an analysis of Sterne's subscribers, more than fifty of whom, it is shown, were Dilettanti members. Sterne's connection to the Dilettanti, it is argued, became particularly close around the middle of the decade when his travels to Italy fostered friendships with particular members as well as interests shared by the society members more generally. Sterne was never a member of the Dilettanti, but the society, it is suggested, had a significant role in his social life in his last years, and it was a network he was able to make use of when gathering subscriptions.

- **Darrell Jones, 'Locke and Sterne: The History of a Critical Hobby-Horse'**

This essay provides a comprehensive account of the establishment, development, decline, and recent re-emergence of an interpretatively powerful idea: that Laurence Sterne was profoundly influenced by the philosophical empiricism of John Locke. Although his name is occasionally mentioned in Sternean imitations and parodies of the 1760s, Locke's influence on Sterne remained largely unobserved until the discovery at the beginning of the twentieth century of a remarkable piece of biographical evidence. In the decades that followed, critical solutions to the problem of Locke and Sterne frequently raised significant questions about the status of sources, the nature of authority, and the possible relationships between literature and philosophy. In recent years, progressive approaches to scholarly methodology have again made it possible to think critically and productively about Locke and Sterne. This essay offers a practical contribution to the historical contextualization of the debate.

Slate Academy; Who Nose this Man?; Who Nose this Story?; A Promontory of Asses; A Shandean Screenplay; Riding the Waves; All That Glitters, a 1764 ballad on *Tristram Shandy*; What's in a name; To my Dog Corporal Trim, Maria in the Great Plains; A Country Dance; The Second International Laurence Sterne Foundation Conference in Bydgoszcz, Poland, 26-28 October 2017

Notes:

- **Kalina Maleska, Translating *Tristram Shandy* into Macedonian**

Tristram Shandy was published in Macedonian in 2012-2013. Translating it was understandably difficult, and complicated by specific linguistic features of the Macedonian language. The translator here gives an account of the process.

- **Martha F. Bowden, Elizabeth Kraft, *Tristrapedia or Tangled Web? Laurence Sterne and *Tristram Shandy* Online***

The various platforms and sites on which Sterne and in particular his masterpiece, *Tristram Shandy*, are available form an interesting case study in the evaluative questions that the web itself raises. This essay considers multiple sites in the light of the major areas of concern, including the value of subscription-based and open-access choices, sustainability, the effects of remediation, and the debate on the degree to which reading a digital text is as efficacious in promoting comprehension and retention as a print text. From the tangle of the sometimes

confusing and chaotic online environment emerges a veneration not only for Laurence Sterne and Tristram Shandy but for the printed book itself. And importantly, that veneration is shown to be a living engagement with both text and material object. Paradoxically, surveying the online presence of Tristram Shandy reveals that the digital environment makes it possible for more readers than ever to experience eighteenth-century print culture and the books of Laurence Sterne.
